Career Objective

Creative and user-focused UI/UX Designer with a strong foundation in user interface design, wireframing, and front-end development. Experienced in translating user needs into intuitive and visually appealing digital experiences. Proficient with design tools like Figma and Adobe XD, and skilled in HTML, CSS, and JavaScript for interactive prototyping. Adept at collaborating with cross-functional teams to bring concepts to life while balancing usability with visual design.

Technical Skills

- Wireframing and Prototyping (Low and High Fidelity)
- User Interface (UI) Design
- User Experience (UX) Research
- Design Thinking Methodology
- Figma, Adobe XD, Sketch, Miro, Photoshop, Balsamiq
- HTML, CSS, JavaScript
- Usability Testing, A/B Testing
- Responsive Design and Mobile-first Approach

Certifications

KGiSL MicroCollege, Coimbatore

Jun 2024 – May 2025

(Completed Full Stack Development, UI/UX Designing, Software Testing)

UI/UX Designing

- Learned principles of human-centered design, usability, and accessibility.
- Created wireframes, prototypes, and visual designs using Figma and Adobe XD.
- Conducted user research and usability testing to iterate designs based on feedback.
- Developed responsive front-end designs using HTML, CSS, and JavaScript.
- Collaborated with developers and testers to ensure pixel-perfect implementation.
- Designed UI kits and reusable components for faster design iterations.
- Applied accessibility standards (WCAG) for inclusive user experiences.
- Practiced design thinking and iterative prototyping in team projects.
- Conducted competitor analysis to guide UI/UX decisions based on market trends.
- Improved design ideas after getting feedback from team discussions.

Projects

Case Study – Pethub Animal Adoption Platform

Oct 2024 – Mar 2025

Tools Used: Figma, Notion, Miro, Adobe XD

- Conducted user research and surveys to understand pain points in pet adoption processes.
- Mapped user journey and information architecture to design a more intuitive experience.
- Designed high-fidelity wireframes and prototypes for the pet adoption flow.
- Applied accessibility best practices to improve user inclusivity.
- Presented case study with visual mockups and user feedback insights.

Personal Portfolio Website – UX/UI Designer Showcase

Tools Used: Figma, HTML, CSS, JavaScript, GitHub Pages

- Designed and developed a personal portfolio website to highlight UI/UX projects and case studies.
- Focused on clean layout, interactive transitions, and accessibility.
- Integrated responsive design principles to ensure cross-device compatibility.
- Hosted live version on GitHub Pages and linked case studies with visuals.

Soft Skills

- Creative Thinking and Empathy
- Strong Visual Communication
- Team Collaboration
- Time and Task Management

Education

V.S.B Engineering College, Karur

Aug 2017 – Aug 2021

Bachelor of Technology in Information Technology — CGPA: 7.7

SIVAGANESH S

+91 9080460428 — sivaganeshshankar@gmail.com — linkedin.com/in/siva-s/ — github.com/Sivaganesh-Sankar — Coimbatore

Career Objective

Dedicated and detail-oriented Software Testing professional with hands-on experience in both Manual and Automation Testing. Proficient in creating and executing test cases, identifying and documenting defects, and ensuring software meets quality standards. Skilled with tools such as Selenium, TestNG, Postman, and JIRA, with a solid understanding of SDLC, STLC, Agile, and the defect lifecycle. Adept at working in fast-paced environments with cross-functional teams to deliver reliable and user-friendly software solutions.

Technical Skills

- **Testing:** SDLC, STLC, Bug Tracking, Agile
- **Automation:** Java, Selenium, SQL, HTML, CSS
- **Tools:** Katalon, MySQL, JIRA, POSTMAN
- **Testing Methodologies:** QA, Test Methodologies, Test case, Test Scenario, and Test Plan creation
- **Frameworks:** Maven, Junit, POM, TestNG

Certifications

KGiSL MicroCollege, Coimbatore

Jun 2024 – May 2025

(Completed Full Stack Development, UI/UX Designing, Software Testing)

Software Testing

- Created manual test cases for web applications.
- Executed test cases and reported defects in software applications.
- Performed functional, regression, and UAT testing to ensure software quality.
- Identified, analyzed, and documented defects, inconsistencies, and issues in software.
- Worked on the development of test plans and test strategies.
- Documented test results and maintained detailed records of test activities.
- Trained in Automation Testing using Selenium WebDriver and TestNG.
- Strong commitment to delivering high-quality software products.

Projects

Manual Testing Project: Reginald Men – E-commerce Skincare Website

Mar 2025 – Apr 2025

Tools Used: Excel, JIRA

- Performed manual testing of the Reginald Men e-commerce platform for men's skincare products.
- Designed and executed test cases for login, product search, cart, checkout, and payment functionalities.
- Logged and tracked bugs using JIRA; collaborated with developers to validate and close defects.
- Performed cross-browser, UI, and regression testing.
- Documented test results, test scenarios, and daily reports.

Automation Testing Project: Reginald Men – E-commerce Skincare Website

Apr 2025 – May 2025

Tools/Technologies: Selenium WebDriver, Java, TestNG, Maven

- Automated regression testing for the Reginald Men e-commerce site using Selenium WebDriver and TestNG.
- Developed Page Object Model (POM) framework for maintainability and reusability of code.
- Integrated Maven for project build and dependencies, and Git for version control.
- Used TestNG for test execution and reporting; validated scripts across different browsers.
- Improved testing efficiency and significantly reduced manual testing efforts.

Soft Skills

- Analytical and Problem-solving Skills
- Team Collaboration and Communication
- Agile Mindset
- Time and Task Management

Education

V.S.B Engineering College, Karur

Aug 2017 – Aug 2021

Bachelor of Technology in Information Technology — CGPA: 7.7

SIVAGANESH S

+91 9080460428 — sivaganeshshankar@gmail.com — linkedin.com/in/siva-s/ — github.com/Sivaganesh-Sankar — Coimbatore

Career Objective

Passionate and motivated Full Stack Developer with hands-on experience in the MERN stack (MongoDB, Express.js, React.js, Node.js). Skilled in designing and developing scalable web applications with strong front-end and back-end expertise. Eager to contribute technical skills, collaborate in a team environment, and grow professionally by delivering high-quality software solutions.

Technical Skills

- **Languages:** HTML5, CSS3, JavaScript (ES6+)
- **Front-end:** React.js, Redux, Tailwind CSS, Material-UI
- **Back-end:** Node.js, Express.js
- **Database:** MongoDB, MongoDB Atlas, Firebase
- **Tools:** Git, VS Code, Postman, npm, Webpack
- **Design Tools:** Figma, Adobe XD, Sketch, Prototyping
- **Web Technologies:** REST APIs, JSON, JWT

Certifications

KGiSL MicroCollege, Coimbatore

Jun 2024 – May 2025

(Completed Full Stack Development - MERN Stack, UI/UX Design, and Software Testing)

MERN Full Stack Development

- Developed responsive and dynamic web applications using MongoDB, Express.js, React.js, and Node.js.
- Designed RESTful APIs and integrated front-end with back-end services.
- Implemented user authentication and authorization using JWT and OAuth.
- Created interactive UI components with React.js and Material-UI to enhance user experience.
- Managed state efficiently using Redux.
- Worked with MongoDB Atlas for cloud database management and data modeling using Mongoose.
- Utilized Git and GitHub for version control and collaborative development.
- Followed Agile methodologies for project planning and delivery.

Projects

S-DEALS – Full Stack Dress Shopping Web Application

Jun 2024 – Oct 2024

Technologies Used: MongoDB, Express.js, React.js, Node.js, Redux, JWT, Vercel

- Built a full stack dress shopping app with MERN stack, featuring secure user authentication using JWT.
- Created REST APIs for products, orders, and user management; managed app state with Redux.
- Designed responsive UI with React and Material-UI, and deployed on Vercel with MongoDB Atlas backend.
- Live Demo: [Click Here](#)

Weather App – React Weather Forecast Web Application

Jun 2024 – Sep 2024

Technologies Used: React.js, OpenWeatherMap API, CSS, Vercel

- Built a responsive weather app using React.js that displays real-time weather data.
- Integrated OpenWeatherMap API for accurate location-based forecasts and search functionality.
- Styled with custom CSS and deployed on Vercel for reliable performance and scalability.
- Live Demo: [Click Here](#)

Soft Skills

- Problem-solving and Analytical Thinking
- Effective Communication and Teamwork
- Agile Mindset and Adaptability
- Time and Task Management

Education

V.S.B Engineering College, Karur

Aug 2017 – Aug 2021

Bachelor of Technology in Information Technology — CGPA: 7.7
